Learn Something
New Every Day.

New Ways to Improve Teaching Efficiency and Student Engagement.

Solutions for **Modern Learning**

It's time to bring your classroom, tech lab or remote learning space up to date. Turn to V7 solutions for fast deployment, reliable computer peripherals and accessories to complete your distance learning and virtual instruction programs without straining the budget.

We carry all the essential tools you need—in stock—to upgrade education stations, reduce clutter and save space, protect and track valuable assets, and generally make life easier for students and teachers alike.

Why V7?

Whether the task is to upgrade current facilities or build new schools, V7 offers the expertise in education technology, along with the service, support and resources on which schools depend. Let us help you make the most of your learning space and budget by extending the life of devices and improving efficiency, effectiveness, and student engagement.

Availability
We have what you need, in stock and ready to ship. If you're unsure what's best for your situation, our team can help.

Reliability
V7 is backed by Ingram Micro, which is a 50-billion-dollar company. It's safe to say that we'll be here when you need us with a variety of warranty ranges from one year to a lifetime.

Education-Focused
We constantly look for the best solutions to help take your school, classroom, or tech lab to the next level.

Conquer Space, Time and Budgets

Free teachers at all grade levels from the constraints of outdated technologies like projectors and help students learn in a more modern, interactive way. V7 offers solutions for classrooms of any size and budget that promote learning by enhancing collaboration and engagement.

Help guard the health of students as well as extend the service life of valuable equipment, like laptops and tablets, by protecting them from scratches and damage during storage and transport to and from class. We deliver quality protection that schools of all sizes can count on at a competitive price. Do the math and see significant savings over time.

Bring Learning to Life
## Break Free from Outdated Displays with V7 IFP
Interactive Flat Panel

As a new interactive way to collaborate and educate, V7 IFP improves the teaching and learning experience by making interactive lessons possible through state-of-the-art touch-screen technology. The V7 IFP user-friendly specifications also help reduce maintenance and teacher frustration.

Not only does the IFP come with a 4K display, it has 20-point touch capability and USB-C 65w power delivery. This is an amazing function allowing teachers to plug in their computer and present their lesson while not worrying about running out of battery.

The V7 IFP opens a whole new interactive way to collaborate and educate:
- Teachers can keep students engaged while running classes digitally and interactively
- The high-performance V7 IFP excels at multi-tasking and offers many connectivity options
- Easy to use, with simple, intuitive maintenance
- Includes 5-year warranty and remote management license

A heavy duty wall mount, 2 IFP Stylus Pens, and Wi-Fi/Bluetooth module are included.

VSEVEN

Safe Sound
Finding a Healthy Volume for Headphones
Education Headset with Microphone

Listening levels with headphones should rarely exceed 85 dB, as higher volumes are harmful to hearing in the long term, advises The World Health Organization (WHO) and Journal of the America Medical Association (JAMA).

Yet headphone-volume is often underestimated, while teachers and parents are unable regulate or even check the volume used by their children and students.
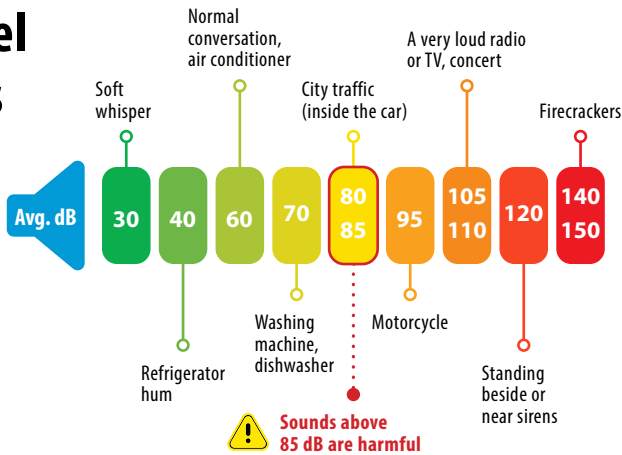

Students don't usually use the same set of headphones all the time when in the classroom at school or at a home with the family. But exchanging headphones with others can lead to hygienic challenges as bacteria and other surface pathogens travel from student to student.

Only V7 Education Headsets offer all three of these features:
- Decibel output control: user-selectable settings of 85 dB, 94 dB and 105 dB.
- Made with antimicrobial materials to inhibit bacteria growth and other pathogens on headset surfaces.
- Shipped in anti-lice storage bags, which can be used to assist with headset decontamination in the event of outbreaks.

Decibel Levels

Soft whisper — Normal conversation, air conditioner — City traffic (inside the car) — A very loud radio or TV, concert — Firecrackers

Avg. dB: 30 — 40 — 60 — 70 — 80/85 — 95 — 105/110 — 120 — 140/150

Refrigerator hum — Washing machine, dishwasher — Motorcycle — Standing beside or near sirens

⚠️ **Sounds above 85 dB are harmful**

	3.5mm analog	USB-A
Model	HA530E	HU540E
SKU	7FL206	7FL205

Safe Volume
Designed with control of decibel output with user selectable settings.

Antimicrobial
Made with antimicrobial materials to inhibit bacteria growth.

Anti-Lice Prevention
Comes in an anti-lice storage bag to help decontaminate outbreak.

Durable and Reliable

A Comfortable and Everyday Combo

Essential Keyboard & Mouse Combo

This full-size keyboard and mouse combo is built for functionality and all-day comfort. It features media hot-keys that allow you to quickly access several basic functions, which is a real time-saver, plus it has comfortable keys made for hours of use.

- Hot keys to instantly access your basic functions
- UV coated keys for durability
- Durable, spill-resistant design and sturdy adjustable tilt legs
- Dependable wired USB connection with PS/2 adapter

	USB	2.4G Wireless

Reduce Glare and Reflection
Anti-glare coating reduces glare and reflection to enhance viewing comfort.

Anti-Fingerprint
Easy-to-clean surface. Less fingerprint with anti-glare coating.

High Clarity
Natural light tint keeps true color fidelity.

Your Desk Friend
Easily Transform your Learning Space
Height Adjustable Mobile Desk with Drawer

Sitting at a desk all day is mentally and physically exhausting. On the other hand, standing burns more calories and requires more activity for balance, posture and movement. Give students the choice to sit or stand by introducing the potential health benefits of classroom ergonomics with a mobile, height-adjustable desk.

The DTM3SD Height-Adjustable Desk with Foot Pedal lets you turn any class or lab room into an ergonomic area.

A mobile adjustable desk helps students to work more comfortably, offering greater flexibility and improved productivity. In addition to classrooms, tech labs and home learning environments can also benefit because the DTM3SD does not require additional space nor the added cost of an electric or pneumatic height-adjustable desk.

Be Mobile.
Be Productive.
Stand up, move around, and actively engage in your workspace

Model	DTM3SD
SKU	9BA009

Foot Activated Height Adjustment
Sit or stand to work at your desired height for a comfortable learning experience. (75-112cm 29-44in)

Make Your
Screen Private

Protect Confidential or Sensitive Information from Onlookers

Privacy Filter for your Devices

Privacy Filters are excellent for a school's tech lab, testing environments or wherever on-screen data needs to be kept private. Screen data is visible only to persons directly in front of the monitor without blurring or distortion.

- V7 Privacy Filters block out the view from either side of your screen without blurring or distortion
- Filters keep confidential information private and TAA Compliant
- Privacy Filters are reversible. The matte side reduces glare (anti-glare) while the shiny side improves clarity and color, plus Blue Light protection
