

How to Create Product Rating Labels

Size for example only

What needs to be listed?

1. V7 Logo (upper left corner)
2. Product Description (Model Name)
3. V7 Model Number
4. V7 Part Number (This is not required if it is a global SKU)
5. Serial Number Code 39 (S/N) or Batch Manufacturing Date Code (if no S/N)
6. Registration Number (This is the supplier's model number, in case FCC/CE documents are not co-listed)
7. Electrical Rating (voltage etc.)
8. Caution/Warnings (required for certain products)
9. Importer Address:

-If product will be launched globally, it requires the address of the US and EU office:

Ingram Micro, Inc. 3351 Michelson Dr. Suite 100 Irvine, CA 92612, USA	Ingram Micro Pan Europe GmbH Heisenbergbogen 3, D-85609 Dornach / Munich, Germany
---	---

-If product will be launched in the US only: US address is required

-If product will be launched in Europe only: EU address is required

-If space does not allow for any address, the reference to the V7 website where all address can be found is recommended.

10. Website URL: www.v7world.com
11. List all relevant Compliance Marks (FCC, CE, Ctick w/Supplier Code (N778), RoHS, WEEE etc.)
12. Country of Origin
13. If space permits, please also add the following FCC language:
This device complies with Part 15 of the FCC Rules. Operation is subject to the following conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.
ICES language (for Canada): This device complies with Canada ICES-003, Class B. Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

Both examples to the left can be adapted to the best fitting size. All font is Arial.
