

How to Create V7 Product Rating Labels

What needs to be listed?

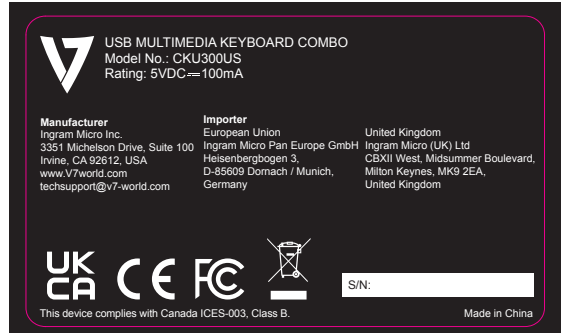

1. V7 Logo (upper left corner)
2. Product Description (Model Name)
3. V7 Model Number
4. Serial Number Code 39 (S/N) or Batch Manufacturing Date Code (if no S/N)
5. Registration Number (This is the supplier's model number, in case FCC/CE documents are not co-listed)
6. Electrical Rating (voltage etc.)
7. Caution/Warnings (required for certain products)
8. Manufacturer Address
9. Importer Address
10. Website URL: www.v7world.com and tech support email
11. List all relevant Compliance Marks (FCC, CE, UKCA at 5mm min., 7mm for WEEE mark)
12. Country of Origin
13. If space permits, please also add the following FCC language:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following conditions;

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

ICES language (for Canada): This device complies with Canada ICES-003, Class B.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.
